Katalunia Young / Music Curator, Afterparty

CYBERFEST 2013: "TIME & PLACE" will unite top innovators from around the world with the exhibit "Paradigm Shift" in combination with a survey of Russian Contemporary Art titled "Capital of Nowhere". Programming including sound art, performances, film screenings and public art will represent Berlin's thriving and thrilling Art and Tech community in addition to serving as its setting.

This year, CYBERFEST will be held in Berlin, marking the first time this important event has been held outside St Petersburg. This significant move was designed to strengthen the cultural exchange between Art and Technology creatives within Russia and their international counterparts.
